

4G LTE GPS HELP BUTTON

Designed to keep your loved ones protected both in and away from home.

The GPS is a mobile help button that provides help during emergencies and GPS monitoring wherever you are. When help is needed, just press the help button and emergency personnel will be sent to your location. Perfect for people who live active lifestyles inside and outside of the home.

Available with Automatic Fall Detection.

Features

- Black or White Option
- Easy Charging Station
- GPS & Caregiver Tracking
- Auto Fall Detection Available
